The amount appropriated for streets last year, continued Major Doley, was only \$80,000. This year the appropriation was cut down to \$40,000 and from that \$13,000 had to be deducted for a special appropriation, and for money spent last year in advance of the adoption of the budget, leaving only \$7,000 to be divided amongst six wards of the city, making \$4,750 for each ward, not enough to keep the ole streets in repair.

The demands for street in provements this year amount to be tween \$90,000 and \$400,000, and they are no fancy demands but are estimates made by properly-holders, representatives from the Council, and the City Engineer for practical work necessary to be done, and for lack of which the properly-owners of this city are daily suffering. This is a matter of vital importance and one which has been too long neglected.

PRAISE YOUR CITY.

There is one idea which in conclusion I would like to impress especially upon our young mendon't be a "croaker"; always be a "buil" on your own city. If you will go to St. Paul, Chicago, Birmingham, or to any great presperous city in the North and West, from the time you leave the cars every man that you meet will be ready to tell you of the great advantages which his city offers for business; the great opportunities for investment, and the low prices at which real estate may be bought in comparison with other cities. That is one secret of their growth and success. They are all condent in their cities and in themselves. I was always a "buil" on Richmond. The first money that I ever made I invested, as they say out West, "in Richmond ditt." I have been investing in it ever since, and I have never had cause to repent of my judgment. I will say to all our young meh. If you have any money don't spend it at the gambling saloon, at the bar-room, at the buckel-shop, but invest it in Richmond "dirt," and hold on to it. It may have its ups and downs, but if you will hold on to it it will yield you a sure and rich return.

Mr. Quarles's Views.

Mr. R. M. Quarles was the usut speaker. Richmond has been growing, he said. Her increase in population is encouraging. When you can feel 20,000 people and pick up hundreds of bassets of fragments he would like to see our people encourage and try and get more to locate in our midst. All money spent in Virgina will help to build up Richmond. It will return to us over the rail-roads. The Norfolk and Western, Mr. Quarles what we want with another botel the Richmond and Petersburg Company.

As to health, no city in the country can compare with Richmond, and more street improvements, lie thought one of the best things that could be done to build up Richmond and Manchester.

Finafore Te-Night.

The presentation of Pinafore at the Acatemy of Music to-night by the Richmond Amateur Company will probably be the most pleasant performance of this opera ever had in this city. The company did some fine singing in the piece a short time ago, and of course are in much better trim now, having been regularly and carefully rehearsed suce then.

The changes in the cast have infinitely strengthened the company. Captain Cunningham will be almost an ideal Ralph, and will no doubt arouse again the enthusiasm that was awakened by his appearance in that character eight years ago. Sir Joseph Porter, a part that requires a careful handling as any in the opera will have a careful and artistic delineator in Mr. Shepherd, whose singing and acting a Dick Deadeye was a most attractive feature in the other performances of the opera. There was a large sale of seats at the Academy box-office yesterday, and the indications are that the opera will have the large and fashionable audience that it srichly deserves.
